

IT CONSULTING

SOFTEK INTL has both the cutting-edge knowledge base and extensive experience to deliver the technology solutions that will enable your business to prosper.

We can assist you with virtually any aspect of your software organization, including:

- **APPLICATION ARCHITECTURE AND DEVELOPMENT -**

Our services help clients assess different technology strategies so that organizations are able to align their technology initiatives with their business strategy.

- **DATABASE DESIGN AND DEVELOPMENT-**

We specialize in database modeling, design and supporting databases, be it Oracle, DB2, SQL Server, Informix or legacy databases.

- **DATA WAREHOUSING -**

We offer complete "end-to-end" data warehousing and business intelligence services, including on-site business/technical needs assessment, development and integration services and partial or total outsourcing of application implementation and maintenance

- **WEB AND GRAPHIC DESIGN -**

We offer cutting edge design for all mediums such as web pages, dynamic media, and print.

- **RISK MANAGEMENT SOLUTIONS -**

We at Softek specialize in security assessments, network and application security design and Security policy development.

- **TESTING SERVICES -**

We provide world class testing services while you focus on your strategic priorities. Our team consists of highly energetic, trained and experienced professionals that focus on critical aspects of your systems, like planning, process control, performance metrics, test automation, execution, defect tracking and reporting.

OFFSHORE CAPABILITIES

Offshore development offers the potential for major cost savings and far faster time-to-market. With proven methodology and intense communication, we endeavor to provide twin benefits of offshore cost saving and easy access of a NJ based company.

BENEFITS-
